ABOUT ICM TECH

Welcome to ICM Technology Thailand – a leading manufacturer of innovative, cutting-edge construction materials and your go-to source for coal supply, energy, oil and gas, chemicals, and advanced nanomaterials.

As a trusted global partner in commodity and raw material trading, we provide tailored, end-to-end solutions to meet your specific needs. Our expert team ensures a seamless international trade experience through efficient sourcing, procurement, demand matching, and logistics.

With strong distribution capabilities, investments in diverse manufacturing facilities, and a robust global support network, we facilitate exceptional commercial flows. Our energy-efficient construction products, developed using patented technology, offer high-quality, cost-effective solutions that reduce construction time and expenses.

VISION

We enhance infrastructure through innovative solutions while prioritizing client needs and maintaining awareness of value, environment, and society. Our aim is to foster a culture of trust and collaboration.

MISSION

Our mission is to advance construction experiences and improve lives in Thailand, ASEAN, and beyond. We uphold integrity and contribute to a discerning market while ensuring customer satisfaction in workmanship, quality, and style.

VALUES

We believe that our values create benefits for shareholders, customers, employees, suppliers, and communities. Our decisions and actions reflect these values as we take responsibility for QUALITY.

At ICM, we prioritize reliability, integrity, and precision, keeping our customers at the heart of everything we do.

Reg No. 0105558117574

Authorized Signatory: Ms. Nikita Sirichawla

Year Established: 2015

Registered Capital: THB 60 million (US\$ 1.8 million)

WHY CHOOSE US?

1. STRAIGHT FROM THE SOURCE

ICM Tech is committed to delivering high-quality products from reputable manufacturers, ensuring they meet the highest standards of reliability and performance.

2. BEST PRICES

At our company, we are committed to offering our customers the best prices in the market. Our mission is to empower you with significant profitability through cost-effective solutions.

3. TIMELY DELIVERY

At ICM, we are dedicated to delivering on time, every time. Ensuring customer satisfaction is our priority, and we strive to exceed expectations with each order."

INNOVATIVE CONSTRUCTION MATERIALS

ICM TECHNOLOGY (THAILAND) CO., LTD.

ICM Technology manufactures and provides cutting-edge construction materials and nanomaterial products. Featuring unsurpassed energy efficiency, our product line has been developed to meet all requirements of the modern-day construction. Our high quality yet cost-effective concrete and nanomaterial products use a unique patented technology that helps reduce construction time and keeps costs low. ICM Tech products yield high-quality constructions with unique energy saving properties.

SCOPE OF BUSINESS

NEOBLOCK™

NEOBLOCK™ construction blocks are equipped with our proprietary interlock technology, 'Link N Lock,' which facilitates efficient installation without requiring labor skills.

ECSTRA™ By NEOPLAST™

ECSTRA™ by NEOPLAST™ Neoplast offers the unique advantage of integrating plastering and waterproofing of construction walls into single streamlined process saving significant time and money.

CRYSTALKRETE™

CrystalKrete™ is a proprietary innovative concrete formula that induces a crystallization composition which seals capillaries and cracks in concrete and becomes an integral part of the concrete making it permanently waterproof.

SMART ELASTIC STONE

Smart Elastic Stone™ A unique stone finishing material created with Patented Technology. Multi-layer material, face layer consists of natural stone marble. Easily bent to 180 degrees, allowing you to install it on angular or radial surfaces.

ICM-FORGE™

Experience unparalleled durability and precision with **ICM-Forge™** stainless steel construction products. Our high-quality materials are designed to endure, guaranteeing that your projects stand the test of time.

SKYTRACK™

SkyTrack™ Glow in the Dark washed stone & resin sand that, when bonded chemically with EASY LAST COAT, create a waterproof, non-slip surface resistant to frequent traffic, with a highly attractive glow in the dark finish.

OUR PARTNERS

Central Energy Trade (CET)

CET is committed to advancing renewable energy solutions for the European Zone. Together, we pave the path to a sustainable energy future for a cleaner planet.

M Energy Asia & BP Energy Development

Our trusted global trading partner. Focusing on all fuel, oil and gas.

PT. Nilam Indah Lestari

ICM specializes in sustainable coal mining and export through various JVs in Indonesia. Our expertise ensures efficient operations and strong partnerships.

Grand Assets Construction

Our Official Building Materials Distribution & Sales Department and Installer.

Zhongtang Steel

ICM collaborates with Zhongtang to manufacture stainless steel under the ICM Forge Brand. We are committed to safety and innovation, ensuring exceptional products for our clients.

Mercury Trade Global

MTG our trusted global food commodity and raw material trading partner.

CET COAL

CET COAL

ICM has built a robust Business to Business contract network with numerous energy partners worldwide, establishing itself as a reliable source of coal in the global market, particularly in Asia. We collaborate with over 10 mining and exporting partners in Indonesia who are dedicated to enhancing their coal mining operations, quality, and customer satisfaction under the "CET Coal" brand. Some of the names we collaborate with are PT. Nilam Indah Lestari, and many more. Our mission is to consistently enhance quality control for our customers, operating transparently and encouraging all customers to engage in the operations process for full transparency.
