

CET COAL

QUALITY COAL GUARANTEED!

THERMAL/STEAM COAL

ICM has built a robust Business to Business contract network with numerous energy partners worldwide, establishing itself as a reliable source of coal in the global market, particularly in Asia. We collaborate with over 10 mining and exporting partners in Indonesia who are dedicated to enhancing their coal mining operations, quality, and customer satisfaction under the "CET Coal" brand. Some of the names we collaborate with are PT. Cordelia Bara Utama, PT. Nilam Indah Lestari, and many more. Our mission is to consistently enhance quality control for our customers, operating transparently and encouraging all customers to engage in the operations process for full transparency.

MINING PARTNERS

Leveraging our vast experience and effective management abilities, we are well-equipped to develop profitable ventures. ICM operates on a scale with three offices in Indonesia and collaborates with over 10 partners, including PT. Cordelia Bara Utama and PT. Nilam Indah Lestari, among others. Our Jakarta office is responsible for marketing and legal affairs, while our offices in South and East Kalimantan manage operations, supported by a team of specialists in Quality Control and Shipping Management.

STOCKPILE MANAGEMENT

We utilize over 3(three) Crushing Facilities and 150 Trucks for loading activities

Each stockpile location is observed and supervised by our Logistic Team and Quality Assurance Team
