WHAT WE DO.....

We take immense pride in being an integral part of the expansive network of supply companies, catering to the diverse needs of our valued customers. Leveraging our robust support network, we are strategically positioned to facilitate commercial flows like never before.

INNOVATIVE CONSTRUCTION MATERIALS

ICM Technology manufactures and provides cutting-edge construction materials and nanomaterial products. Featuring unsurpassed energy efficiency, our product line has been developed to meet all requirements of the modern-day construction. Our high quality yet cost-effective concrete and nanomaterial products use a unique patented technology that helps reduce construction time and keeps costs low. ICM Tech products yield high-quality constructions with unique energy saving properties.

CET COAL

ICM has established an extensive Business-to-business contract network with over 30 energy partners globally, positioning itself as a dependable source of coal in the EU and promoting steady growth in the global market, including Asia.

Our partnership with PT. Nilam Indah Lestari (NIL) focuses on coal mining operations and exports under the "CET COAL" branding.

ENERGY TRADE

ICM Technology through our partnership with CET is a key player in the trade of liquid (CEE) and non-liquid (Ukraine, Moldova, Poland) markets. With a strategic approach, the company has gained a significant market share in wholesale transactions, focusing on B2B monthly and annual deals. In addition to meeting partners' trade needs, the company actively supports energy efficiency initiatives and collaborates with certified trade experts to ensure compliance with all regulatory requirements. Our flexible pricing options and risk management strategies, including contracts in EURO and/or USD, enable partners to optimize capacity and gain access to major European energy markets.

PETROLEUM & LUBRICANTS

Welcome to ICM Fuel, your trusted ally in fuel distribution. In collaboration with BP Energy Development, a leading wholesale distributor representing renowned oil refineries like PTT, Bangchak, IRPC, and Esso, we serve diverse sectors, including government, public, and industrial. We ensure the prompt delivery of top-quality fuel products at competitive prices—experience reliability and excellence with ICM Technology Thailand.

UREA

ICM understands the vital role urea plays in agriculture and beyond. While over 90% of urea is utilized as a fertilizer, it also contributes to the production of melamine and essential resins. Additionally, urea is becoming increasingly significant in reducing air pollution from diesel engines. We are dedicated to supplying high-quality urea to ensure successful crop yields for your farm.

CHEMICALS

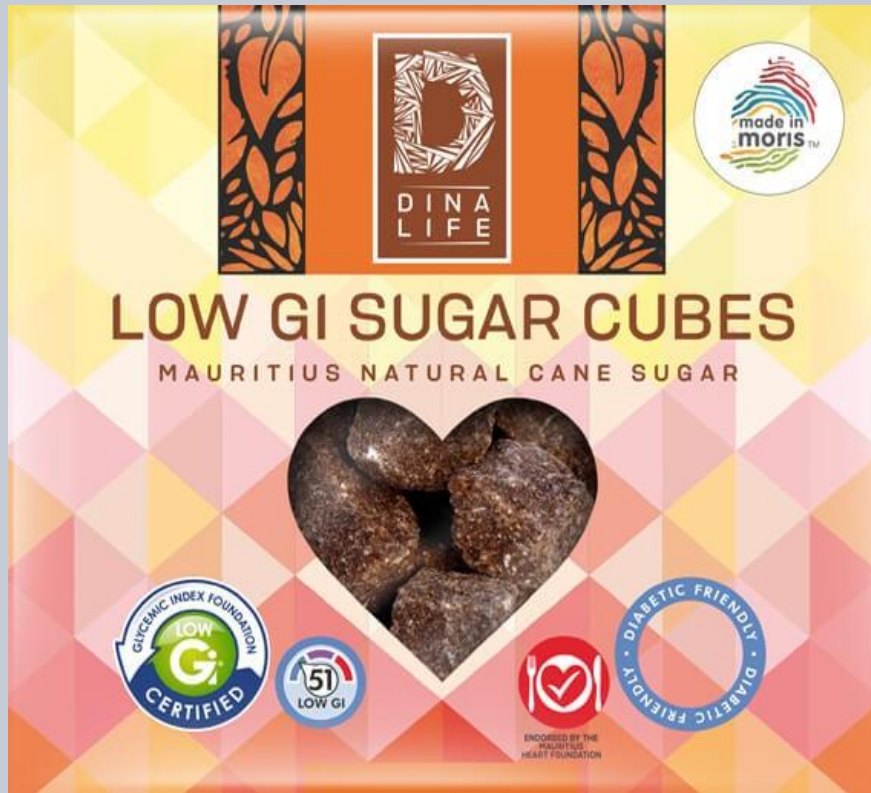

Over the years, we have established partnerships with local and international manufacturers to address the increasing global demand for chemical products, while supporting the growth of the Thai industry. We are proud of our cohesive organization and confidently promise our customers that we are dedicated to providing the highest quality in both supply and sourcing.

MTG FOODS

With a total of 40 years of experience, the ICM Technology & Mercury Trade Global's team and its affiliates are committed to providing high-quality agricultural products to our clients every. As a B2B organization, we strive to ensure our clients fully benefit our partnership. The agricultural industry in India faces such as disorganization, limited land per farmer, and a lack skills, all of which are worsened by local issues and climate change that affect quality consistency. Our clients expect consistent quality throughout the year, and we are dedicated to meeting that expectation through our efforts. By partnering with a network of farmers and processors across India, we ensure the sourcing and export of only the best products, allowing our customers to take pride in their partnership with us.
